

# SCAT INDIA TRADE SHOW 2025: POWERING THE FUTURE OF CABLE, BROADBAND & DIGITAL CONNECTIVITY

India's satellite and cable TV industry stands at a defining moment. With broadband penetration surging, 5G rollout underway, and OTT platforms reshaping viewing habits, the country's connectivity landscape is evolving at lightning speed. Against this dynamic backdrop, the SCaT India Trade Show 2025, set to take place in Mumbai this October 14-16, 2025 at Jio World Convention Centre, Mumbai, promises to be a pivotal hub for technology, partnerships, and innovation.

## स्कैट इंडिया ट्रेड शो 2025: केबल, ब्रॉडबैंड और डिजिटल कनेक्टिविटी के भविष्य को मजबूत बनाना

भारत का सैटेलाइट और केबल टीवी उद्योग एक निर्णायक मोड़ पर है। ब्रॉडबैंड की बढ़ती पहुंच, 5जी की शुरुआत और ओटीटी प्लेटफॉर्म द्वारा दर्शकों की आदतों में आ रहे बदलाव के साथ, देश का कनेक्टिविटी परिदृश्य विजली की गति से विकसित हो रहा है। इस गतिशील पृष्ठभूमि, 14-16 अक्टूबर, 2025 को मुंबई के जियो वर्ल्ड कन्वेंशन सेंटर में आयोजित होने वाला स्कैट इंडिया ट्रेड शो 2025, तकनीक, साझेदारी और नवाचार का एक महत्वपूर्ण केंद्र बनने का वादा करता है।

14 - 16 OCTOBER, 2025

Jio World Convention Centre, Mumbai

For more than three decades, SCaT India has been the go-to platform for cable TV operators, ISPs, broadband providers, and technology innovators to discover the latest in distribution, content delivery, and network infrastructure. The 2025 edition continues this legacy-spotlighting next-generation fiber solutions, powerful OTT platforms, and cutting-edge hardware that will drive the nation's digital future.

Below is a preview of standout exhibitors ready to showcase breakthrough products and solutions at this year's show.

तीन दशकों से ज्यादा समय से, स्कैट इंडिया केबल टीवी ऑपरेटर्स, आईएसपी, ब्रॉडबैंड प्रदाताओं और तकनीकी नवप्रवर्तकों के लिए वितरण, और नेटवर्क इंफ्रास्ट्रक्चर में नवीनतम जानकारी प्राप्त करने का महत्वपूर्ण मंच रहा है। 2025 का संस्करण इसी विरासत को आगे बढ़ा रहा है—अगली पीढ़ी के फाइबर समाधानों, शक्तिशाली ओटीटी प्लेटफॉर्म और अत्याधुनिक हार्डवेयर पर प्रकाश डाल रहा है जो देश के डिजिटल भविष्य को गति देगा।

आगे इस वर्ष के शो में अग्रणी उत्पादों और समाधानों का प्रदर्शन करने के लिए तैयार प्रमुख प्रदर्शकों की एक झलक दी गयी है।

## A01: VORTEX GROUP

Manufacturing and distribution of best-in-class products & solutions - XPON Routers, OLT's, Network Switches and other allied equipment and accessories.

URL: [www.vortexit.in](http://www.vortexit.in)

## A02: SHIVAM ELECTRONICS

Shivam Electronics established in 1998. We are Leading Manufacturer of CATV accessories and Internet Products which includes Taps and Splitters, RF filters, Transmitters, receivers, Amplifiers, Joint enclosure, Termination box, wall mount louver box and Many more products. Under "Signal" Brand Name we are supplying our products. As possessing the most advanced producing and checking equipment like vector analyzer and attracting larger number of talents in Digital Communication. Company listed under CE RoHS and ISO 9001-2015 certification. We value our customers demand and always try to fulfill at possible rate. Over the last decades Shivam Electronics has become a professional high technologies enterprise. Company offers a wide range of channel traps and RF filters which can be provided

for any frequency from 5 to 1000 MHz. With more R&D in Communication System to bring you more flexible and High Performance Products.

## A03: UNISTRAT BUSINESS SOLUTIONS PVT. LTD.

Unistrat Business Solutions Pvt. Ltd. is a fast-growing technology company dedicated to building intelligent, scalable, and future-ready digital platforms. Headquartered in Mumbai, Unistrat specializes in delivering enterprise-grade software solutions that empower Internet Service Providers (ISPs), Multi-System Operators (MSOs), Cable TV operators, and enterprises to streamline operations, enhance customer experiences, and achieve sustainable growth.

With a strong foundation in innovation and customer-centric design, Unistrat offers flagship products such as UniCRM, Triple Play – Multi Service CRM, and Triple-A Radius Manager, which serve as comprehensive OSS/BSS solutions. These platforms integrate advanced modules for billing, inventory, franchisee management, AAA (Authentication, Authorization & Accounting), and real-time analytics—helping service providers efficiently manage millions of subscribers across multiple services.

The Triple Play – Multi Service CRM is purpose-built for operators delivering converged offerings such as Broadband, Cable TV, VoIP, IPTV, and OTT under a single unified system. By automating provisioning, centralizing customer

support, and simplifying revenue management, it empowers operators to deliver consistent, high-quality experiences across all service lines. With seamless integration of IPTV and OTT platforms, the solution also enables operators to capture new-age digital entertainment markets while retaining traditional service customers.

Driven by a mission to simplify digital transformation, Unistrat collaborates with operators, distributors, and enterprises to co-create solutions that reduce costs, increase efficiency, and unlock new revenue opportunities. The company's culture is anchored in agility, transparency, and continuous innovation, ensuring that clients always stay ahead in a competitive marketplace.

From startups to established enterprises, Unistrat is trusted as a technology partner of choice for organizations seeking reliability, scalability, and long-term value. With an ambitious roadmap and a strong commitment to excellence, Unistrat continues to redefine how businesses operate in the digital era.

URL: [www.unistrat.in](http://www.unistrat.in)

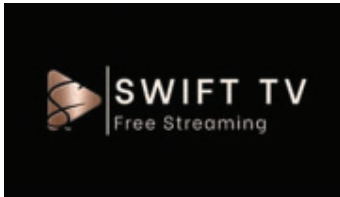

## A04: FELDER BROADBAND SYSTEMS

Felder Broadband Systems a well-known and trusted name in the Cable TV & Networking industry since a long time. FELDER one of the best FTTH Products. A strong support to the customers and high quality of products has resulted FELDER as No 1 Brand of Cable TV FTTH products in India.

URL: [www.catvaccessories.com](http://www.catvaccessories.com)

## A07: SWIFT TV

Swift by The Germane Media - India's new Independent Fast platform!

Swift TV, a fast-growing free live TV streaming platform offering 130+ channels across genres and languages. We are available on both mobile and Connected TV, catering to a wide audience across India, as well as in the US and Canada. You can enjoy exciting content whenever you want, right at your fingertips, without spending a penny.

URL: [www.playswift.tv](http://www.playswift.tv)

## A08: COMWAY TECHNOLOGY LLC

COMWAY 's R&D is a group of senior talented individuals who strive to make a difference. We design and manufacture products and provide services that make connections possible for our customers, Our extensive experience in both design and application allows us to develop integrated solution that solve unique technology application challenges for our customers . Our R&D group is dedicated to developing new technologies for future applications. Our products are manufactured and supplied in compliance with the global quality parameters with the help of the finest quality raw material.

URL: [www.comwaytek.com](http://www.comwaytek.com)

## B01: SKYPLAY IPTV SERVICES PVT LTD

At SKYPLAY, Our mission is to revolutionise the way India experiences digital entertainment. We strive to deliver seamless, personalised, and innovative connectivity solutions tailored for every household. Through our reliable broadband, IPTV, and OTT services, we aim to empower communities with limitless access to content and communication. Our vision is to enrich everyday life by making high-speed internet and smart entertainment accessible to all corners of the nation.

URL: [www.skylink.net.in](http://www.skylink.net.in)

## B02: GOIP GLOBAL SERVICES PVT. LTD (SYROTECH)

"We are committed to innovating and manufacturing top-tier FTTx, Datacom, Networking, Security and Entrance solutions. Our vision is to establish India as a global leader in the Fiber and Security industry with high-quality, reliable, and affordable products.

URL: [www.Syrotech.com](http://www.Syrotech.com)

## B2A: SYNFOCOM SYSTEMS LLP

DRCOM ([www.dr-com.com](http://www.dr-com.com)) is a premier, ISO-certified manufacturer of industrial-grade, customizable fiber-optic cabling solutions, headquartered

in Mumbai. With a state-of-the-art, TSEC-equipped manufacturing facility strategically located in Vapi, Gujarat, DRCOM has an annual production capacity of over half a million kilometers of optical fiber cable. The company is BSNL TSEC certified and RDSO compliant, underscoring its commitment to the highest industry quality standards.

The extensive product portfolio includes a wide variety of optical fiber cables such as FTTH (round & flat), CATV, UNI & MULTI-TUBE (1F-288F armored & unarmored), ADSS, and FIG-8 OFC types. This core offering is supported by a plethora of passive products like PLC splitters, couplers, patch cords, POE switches, access points & fiber management systems (FMS), alongside active components including UPS, ONT, and OLTs. DRCOM also provides comprehensive copper solutions, coaxial cables, and accessories and is at the forefront of emerging technologies with solutions for Wi-Fi 7 and SD-WAN.

DRCOM's dedication to quality, reliability, and value is reflected in its core principles of under-promising and over-delivering, earning the trust of a prestigious and diverse clientele. The company has successfully carved a niche across critical sectors, including government, defense, education, enterprise, and telecom. Its client list features major government bodies like BSNL, Indian Railways, DRDO, and the Indian Navy, as well as leading private enterprises such as TATA Teleservices, GTPL, and Hathway.

Leveraging advanced manufacturing innovations for fast deployment, DRCOM is dedicated to providing superior, world-class products and technical innovation, truly "FIBRERING THE WORLD."

## B03 & B03A: OPTILINK NETWORKS PVT. LTD.

Optilink is a leading manufacturer of advanced optical networking and telecom solutions, driving India's digital infrastructure with high-performance & scalable technologies. With over two decades of expertise, we empower ISPs, telecom, data centers, and enterprises through cutting-edge R&D, precision manufacturing, and global partnerships.

### Core Offerings

- ◆ FTTH Solutions: High-speed, reliable, and scalable fiber optic solutions. Latest OLTs, ONUs, and complete EPON/GPON/XGPON ecosystems including CMS.
- ◆ Optical Components: SFP transceivers, patch cords, splitters, FDBs, fiber cables. All types of active & passive components.
- ◆ Data Center Infrastructure: 100G–800G transceivers, MTP/MPO cables, LIUs, Ethernet switches
- ◆ Telecom Backbone: DWDM systems, core/aggregation switching, transport networks.

### Industries Served

- ◆ ISPs & Telecom Operators
- ◆ Data Centers & Cloud Providers
- ◆ Government
- ◆ Healthcare, Education & Enterprises

### Why Optilink

- ◆ Advanced R&D: In-house innovation for next-gen optical technologies
- ◆ Global Reach: Deployments all

over India & globally across Asia, Middle East & Africa

- ◆ Proven Track Record: 20+ years of trusted performance and client satisfaction
- ◆ Expert Team: A dedicated team of engineers, network specialists, and customer support professionals who are passionate about providing top-tier solutions & services.

### Visit Us at SCAT 2025, Mumbai

Explore our latest innovations in FTTH PON Networks, Switches, transport solutions and hyperscale connectivity. Let's build the future of broadband—together.

“Partner with Optilink to build India's next-gen digital infrastructure. Reach out for custom solutions, demos, or strategic collaborations.”

## B3B: HEIGHT8 TECHNOLOGIES PVT. LTD.

Mark Your Digital Presence with H8 CMS

In the era of digital streaming, managing digital content efficiently is not just a need — it's a competitive edge. That's why Height8 is introducing H8 Content Management Software (CMS), a powerful, scalable platform designed to streamline the creation, configuration and publishing of digital content cross platform. End-to-End white label solution to increase your brand value.

### Quick Highlights of H8 CMS

- ◆ Real-Time Dashboard
- ◆ Subscribers & Partner Management

- ◆ Multi Content Provider Management
- ◆ Content Management
- ◆ Curate & Organize Rails Efficiently
- ◆ Advertisement Management
- ◆ Live TV Streaming
- ◆ EPG Guide for Live Streaming

H8 CMS enables users to easily upload, categorize, tag and schedule video content ensuring your audience always sees the right content at the right time. From organizing metadata to managing video thumbnails, trailers and subtitles, H8 simplifies every step of the OTT content lifecycle. All showcasing your BRAND on a seamless platform.

Our intuitive dashboard, advanced configuration options and real-time editing, make it easy to manage large volumes of video without bottlenecks. We ensure content is optimized for any screen—mobile, tablet, smart TV or web.

### H8 Unified Mobile App

A single mobile app platform for multi services, Broadband, IPTV & OTT/Content. For LCOs and end Subscribers for all services.

### Cross-Platform Compatibility:

- ◆ Mobile App : Available on Android and iOS
- ◆ TV Supported : Android TV, LG, Samsung, FireTV, WebOS

Whether you're launching a new streaming platform or optimizing an existing one, H8 CMS makes managing OTT content smarter, faster and more efficient.

Elevate your OTT strategy with H8 CMS that puts your content in control.

## **B04: DBYTE FACILITY NETWORK PVT. LTD.**

Dbyte Facility Network Private Limited is a licensed National Long Distance (NLD) service provider, delivering next-generation connectivity solutions across India. With a vision to bridge the digital divide and empower enterprises, carriers, and communities, Dbyte has built a resilient high-capacity backbone designed for reliability, scalability, and ultra-low latency.

At the core of Dbyte's infrastructure is a robust MPLS-based optical fiber backbone, engineered to support bandwidths of 100 G, scalable to 800 G. This backbone seamlessly interconnects Tier-1 cities with rural and underserved Tier-3 and Tier-4 regions, ensuring digital inclusion across geographies. Complementing this backbone is a unique deployment of Micro Edge Data Centers (MDCs) positioned strategically every 35–40 kilometers. These MDCs provide localized hosting, caching, and cloud-edge capabilities, enabling faster content delivery, reduced latency, and improved user experiences for applications such as OTT streaming, gaming, fintech, and enterprise cloud services.

Dbyte's carrier-grade services include Layer-2 and Layer-3 transport, VPLS/MPLS-L2VPN connectivity, dedicated Internet access, and Network-as-a-Service (NaaS) offerings. Its partnerships with leading operators such as Airtel, Tata, and Vodafone extend its reach nationwide, while its interconnections with internet exchanges and cloud providers strengthen multi-cloud and content delivery capabilities.

With a strong focus on reliability, Dbyte ensures redundancy at every layer—backbone, power, and facilities. The company's solutions are designed not only for enterprises and hyperscalers but also for telecom operators seeking rapid expansion without heavy capital expenditure. Through its OPEX-driven models, Dbyte enables customers to scale quickly and efficiently, offloading the complexities of infrastructure build-out and maintenance.

Driven by innovation and backed by over three decades of telecom expertise, Dbyte is committed to creating India's most agile and future-ready digital infrastructure, supporting 5G, 6G, and beyond.

## **B05: COMMSCOPE INDIA PVT. LTD.**

CommScope is proud to be part of SCAT India 2025, bringing our global expertise and local commitment to one of the fastest-growing digital and broadcast markets in the world. For decades, CommScope has been at the forefront of building the infrastructure that powers connectivity—from central offices and data centres to homes and businesses across India and beyond.

At CommScope, we believe that connectivity is more than cables and components—it is the foundation of progress, empowerment, and innovation. As India accelerates its digital transformation journey, the demand for reliable, scalable, and future-ready networks has never been greater. CommScope answers that call with an unmatched portfolio of end-to-end broadband, fibre, and network infrastructure solutions designed to deliver resilience, simplicity, and long-term value.

Visitors to our booth will discover how solutions such as the FLX™ ODN platform, compact closures, and advanced connectivity products are redefining the way operators and service providers deploy fibre networks.

What sets CommScope apart is our "India for India" commitment—driving local innovation, manufacturing excellence, and strong partnerships with India's leading service providers, distributors, and system integrators. By blending global innovation with local insight, we are helping build a broadband ecosystem that is not only resilient but also inclusive, sustainable, and ready for the next generation of digital experiences.

Join us at Booth B5 to see how CommScope is simplifying networks, empowering operators, and shaping the future of connectivity in India. Let's connect, collaborate, and create a smarter tomorrow-together.

CommScope – Network Resilience, Simplified.

## **B06: RAY ELECTRONICS**

RAY ELECTRONICS is a manufacturer of Electronic & Communication cables since the last 30 years. Our Range of Products are

- ◆ Megabyte / Ilink Optical Fiber Cable for Indoor / Outdoor Applications in Configurations Of 1 - 24 Core.
- ◆ Fiber Drop Cable with 1 / 2 Fiber for Last Mile Connectivity.
- ◆ FTTH Patch Cords in lengths of 30- 100 M.

- ◆ MegaScope / Megastar 75 Ohm & 50 Ohm Co-axial Cables for CATV and Wireless Applications in both Copper and CCS Conductors.
- ◆ Megabyte CAT 5e / CAT 6 - UTP/STP Networking Cables with GigaSpeed Support for Computer and Internet Applications.
- ◆ MegaVision CCTV Cables for Security & Surveillance Systems for Aerial and Underground Applications.
- ◆ Other Specialty Cables as per requirement.

Our products are used by major CATV Networks, Broadband Internet Service Providers and Security System Installers in various projects across the country.

We welcome OEM Requirements, and Special Deals are on Offer.

It is Our Continuous Effort to Develop Newer and Better Products to Maintain Highest Quality Standards and offer value for money products.

This truly makes Ray Electronics Your Best Choice from The First Mile to The Last Mile!!

### **B11: NEELADRI SOFTWARE SOLUTIONS PVT. LTD.**

Neeladri Software Empowering ISPs and Cable TV Providers with Complete, End-to-End Solutions and is also TEC certified.

We deliver scalable, future-ready technology solutions tailored for Internet Service Providers (ISPs) and the Cable TV industry. Our platforms are designed to streamline operations, enhance service delivery, and drive business growth.

For ISPs: Smart, Scalable Network Management

Our fully integrated ISP suite includes:

- ◆ RADIUS Server Integration for secure authentication and access control
- ◆ Subscriber Management and CRM
- ◆ Automated Billing & Invoicing
- ◆ Bandwidth Optimization
- ◆ Real-Time Network Monitoring
- ◆ Advanced Analytics & Reporting

These tools help ISPs manage large user bases, optimize performance, and make data-driven decisions-all while ensuring seamless service.

For Cable TV Operators: Centralized Control & Flexibility

Our cable TV software offers:

- ◆ SMS Platform Integration for customer notifications and updates
- ◆ Digital Headend Integration
- ◆ Channel Package Management
- ◆ Subscription Automation & Renewals
- ◆ Flexible Pricing Models
- ◆ Multi-Location Support

Built for both traditional and hybrid (IPTV/DTH) models, our solutions ensure adaptability in a fast-changing media landscape.

URL: [www.nldsoft.com](http://www.nldsoft.com)

### **B14: MULTICRAFT DIGITAL TECHNOLOGIES PVT. LTD.**

Multicraft Digital Technologies Pvt. Ltd. is a Unified License for provision of services under ISP Category A with authorization to set up and provide “INTERNET SERVICES IN ALL INDIA SERVICEAREA (Class A ISP)”. Based in Noida (Head Office in Delhi), Mumbai and Other Several Office Locations, we serve around 150 cities and towns of 18 states.

We have a valid Registration Certificate for Infrastructure Provider Category – I (IP-1) for provision of services to establish and maintain Infrastructure assets.

Being Class-A ISP, We have adopted the latest cutting-edge

technology to build these Ultra-Fast Internet superhighways on FTTX, Copper, wireless and Wi-Fi hotspots at affordable prices.

We provide services to both Residential and Enterprise customers in India under our brand “MultiFi”.

We aim to provide our customers with innovative Internet services that can add value to their life and businesses.

MultiFi offers ultra-fast broadband services with a wide portfolio of enriching VAS to Residential/Home customers. Broadband services are offered over FTTx at incredible speed range from 10 Mbps to 100 Mbps enabling user flexibility of choice to select.

## C6A: DABBA NETWORK

Founded in 2016 by Shubhendu Sharma and Karam Lakshman, Dabba Network began with a bold mission: to make internet access affordable, reliable, and accessible to everyone. We help Local Cable Operators (LCOs), ISPs, and MSOs turn their existing networks into profitable internet businesses. With Dabba, you can compete with big telcos, faster, smarter, and with more control over your growth.

### For the Real Heroes of Connectivity

We partner with LCOs, small ISPs, MSOs, and internet entrepreneurs, the people powering India's connectivity. Our solutions are designed to help you scale, improve margins, and serve communities with reliable, affordable internet.

## How Dabba Helps You Grow

With Dabba you get:

- ◆ All-in-One ISP Kit: Onboarding, automated billing, CRM, captive portal, and analytics in one simple setup.
- ◆ Deploy Fast: Plug-and-play hotspots and fibre workflows that go live in days, not months.
- ◆ Smarter Operations: Automation and AI tools to cut downtime, reduce truck rolls, and keep customers happy.
- ◆ New Revenue Streams: Data bundles, OTT tie-ups, promos, and optional DABBA token rewards.
- ◆ Partner-First Support: Training, deployment kits, and a dedicated success team at every step.
- ◆ Marketing: Digital marketing and local branding to acquire new customers fast
- ◆ Zero Joining Fee: Joining Dabba is completely free, there are no hidden costs.

## Reliable Performance, Scalable Growth

Dabba has deployed 10,000+ live hotspots across Tier 1 and Tier 2 cities, delivering 99% uptime SLAs with less than 1% churn. Our business partners have witnessed up to 10x business growth within a year of joining Dabba.

We're here to make sure growth isn't reserved for big telcos. With Dabba, internet operators get a chance to become business leaders.

### Meet Us and Get Started

### C6B: APRECOMM PVT. LTD.

#### About Aprecomm

Aprecomm was founded on the premise that time is and always will be, a critical commodity for everyone, everywhere. Our cloud and AI-powered platform harnesses the cloud and AI to enable service providers to achieve operational excellence by deploying zero-touch, self-optimizing and self-healing networks.

Our quality of experience (QoE) engine optimizes end-to-end broadband performance, while our data-rich applications use real-time intelligence to automate customer support, saving time and money. In turn, consumers can spend more time on the experiences they love, using internet applications to enhance lifestyles and improve productivity, rather than spending needless time troubleshooting their devices and networks.

Aprecomm's cloud and AI-powered software manages over 7 million locations globally, with deployments by over 45 service providers. Our software has been widely integrated by over 50 leading broadband consumer premises equipment (CPE) makers.

Together, we are making intuitive networks a reality.

URL: [www.aprecomm.ai](http://www.aprecomm.ai)

### **D01: CANDID OPTRONIX PVT. LTD.**

Candid Optronix Pvt Ltd (an ISO 9001:2015 Certified Company) is one of the largest manufacturers & authorized distributor of Sumitomo, Deviser, EXFO & Winner Sat. Our company was established in the year 1998 and branch Offices are Kolkata, Siliguri, Ahmedabad, Mumbai, Chennai, Bangalore, Guwahati, Hyderabad, Patna, Raipur, Odisha, New Delhi.

We have our own manufacturing units and input quality control to give the best products to our customers with efficient after sales service. We work closely with our 250 distributors and dealers all over India and in neighboring countries.

Our product range includes GEPON, GPON, FTTH Products, Digital Headend, Transmitters, Optical Receivers, Cables, Power meters, OTDRs and Splicing Machines as well as a complete range of CATV RF Products.

Our business has been based on the principle of customer satisfaction. We constantly try to improve our products and services to be more efficient and economical.

URL: [www.optronix.in](http://www.optronix.in)

### **D01: INVAS TECHNOLOGIES PVT. LTD.**

INVAS Technologies Private Limited, established in 2006 by experienced telecom engineers, has built a strong reputation over the past 18 years for delivering reliable testing solutions and services to major Telecom service providers. With deep roots in the sector, INVAS has steadily expanded its capabilities to offer a

comprehensive range of solutions for both Wireline and Wireless Networks.

Today, INVAS serves clients across India, Sri Lanka, Nepal, and Bangladesh, addressing the needs of diverse network environments. Committed to building long-term partnerships, the company provides robust after-sales support during and beyond warranty periods through its Certified Services Centre (CSC), accredited by respected international bodies.

Headquartered in Delhi-NCR, INVAS maintains a strong presence in key cities throughout India, including Jammu, Patna, Mumbai, Bangalore, Kolkata, Hyderabad, Chennai, and Kochi. This network ensures prompt, efficient, and reliable support for customers not just in India but throughout the SAARC region.

INVAS's team of highly skilled professionals is well-equipped to manage complex telecom projects that incorporate the latest technologies. Their end-to-end services cover deployment, commissioning, testing, repair, calibration of test equipment, user training, and comprehensive lifecycle support.

Over the years, INVAS has achieved significant milestones by consistently meeting customer expectations and adapting to the evolving demands of the telecom industry. Looking ahead, the company is positioned for substantial growth, delivering solutions that enable converged broadband networks and support a diverse array of services for end users.

By combining technical expertise, quality service delivery, and an unwavering commitment to customer satisfaction, INVAS Technologies continues to strengthen its role as a trusted partner for telecom solutions across India and the SAARC nations.

### **D03: JP CABLES PVT. LTD.**

Manufacturer of: Optical FibreCables(Armoured/unarmoured); telecommunication Cables : Fire Alarm/fire Survival Cables: Xlpe/pvc Insulated Armoured/unarmoured Power and Control Cables: Instrumentation Cables.”

URL: [www.jpables.in](http://www.jpables.in)

### **D03: CLEVERFOX EQUIPMENTS PVT. LTD.**

We are importers and leading manufacturer of internet and cable tv products. Single band , dual bands, android box, cable tv products, switches, splicing machines, otdr, projector, onu, clever, telescopic ladders etc.

URL: [www.cleverfoxequipments.com](http://www.cleverfoxequipments.com)

## D04: KEITH ELECTRONICS PVT. LTD.

Keith Electronics caters to a diverse range of industries with its high-performance test and measuring instruments. Our solutions are trusted by telecom operators, ISPs, CATV providers, PSUs, telecom contractors, the defence sector, railways, and cable manufacturers.

URL: [www.keithelectronics.com](http://www.keithelectronics.com),  
[www.keithelectronics.in](http://www.keithelectronics.in)

## D05: CCL OPTOELECTRONICS PVT. LTD.

CCL Opto Electronics Pvt. Ltd. (established June 2000) – a privately held manufacturer headquartered in Mahape, Navi Mumbai, Maharashtra, India.

Industry & Specialization: Telecommunications / Passive fiber-optic components-fiber optic cables, patch cords, adapters, connectors, splice closures, distribution boxes, fiber management systems, attenuators, SFP transceivers, etc.

URL: [www.cclopto.com](http://www.cclopto.com)

## D07: JRS GLOBAL NETWORKS PVT. LTD.

JRS Global Networks Inc. is a value-added distributor for IT networking hardware and telecommunication infrastructure since 2010.

We proudly represent leading global brands such as Mikrotik, Cambium Networks, Grandstream Networks, Mimosa, TP-Link and also serve as resellers of UBNT, Cisco, RF Elements, and UTT empowering ISPs, MSPs & SMBs,

In addition, we own our in-house brand Optitera, a Made in India, trusted manufacturer of networking cables and accessories, delivering high-performance products with assured quality.

Our portfolio spans a complete range of wireless networking solutions, from network design and deployment to RF planning and frequency coordination. We provide premium Access Points, Backhaul Radios, Antennas, and CPEs for point-to-point and multipoint connectivity, helping bridge the gap in both rural and urban regions lacking high-speed internet.

With 15+ years of experience as master distributors in India, we have now expanded operations across North America, headquartered in Ontario, Canada.

### Our Services include:

- ◆ Network survey & consultation to recommend integrated solutions.
- ◆ Installation, configuration & optimization of networking products.
- ◆ Reliable Technical support for 24x7 in India & Canada.

Acting as a long-term technology partner for clients, providing ongoing retainer services.

URL: [www.jrsgl.com](http://www.jrsgl.com)

## D09: NETWORK ELABS

Network eLabs is an exclusive supplier of New and Refurbished Network Switches, Routers, and Spare Parts, backed by a 1-year limited warranty. We specialize in leading brands such as Cisco, Huawei, Arista, Juniper, H3C, Dell, HP, Brocade, and more.

URL: [www.networkelabs.com](http://www.networkelabs.com)

## D11: HINDUJA GLOBAL SOLUTIONS LIMITED (NXTDIGITAL DIVISION)

NXTDIGITAL is the digital media division of Hinduja Global Solutions Ltd. (HGS) and India's premier integrated digital delivery platforms group connecting 5mn customers in over 4,500 pin codes across India. The digital media business comprises content distribution platforms via cable and satellite, broadband (OneOTTiNTERTAINMENT Ltd.), technology services (IndusInd Media & Communications Ltd.), and content syndication (IN Entertainment Ltd.).

URL: [www.nxtdigital.in](http://www.nxtdigital.in)

## D12: UNIQUE METAL CORPORATION

Founded in 2005, we have 14 years of knowledge in the industry and have grown to be the foremost Manufacturer, Importer, Exporter and Supplier of fiber optic cable in India.

The company specializes in manufacturing of optical fiber network communication products and fiber optic components.

We are quality management ISO 9001:2015, Finolex Distributor and Channel Partner, MSME, IEC and GEM approved.

Our product find wide usage in industries like Information Technologies, Electronics and Telecommunication.

URL: [www.unique-core.in](http://www.unique-core.in)

## D13: NETZUR NETWORKS PVT. LTD

Netzur is a leading provider of OSS/BSS solutions designed specifically for Internet Service Providers (ISPs). Headquartered in India and serving customers globally, we enable ISPs to simplify operations, optimize networks, and deliver seamless customer experiences. Formerly known as Janitor Radius, the company has grown into a trusted

technology partner for service providers across emerging and developed markets.

Our flagship platform, the Netzur Internet Management and Billing System (IMBS), is an all-in-one OSS/BSS suite. It brings together subscriber management, automated billing, bandwidth control, CRM, network monitoring, and reporting in a single, integrated solution. By unifying these functions, Netzur helps ISPs reduce complexity, improve revenue assurance, and operate more efficiently.

Today, Netzur serves ISPs in India and across 10 international markets, with a particularly strong footprint in Africa, where our solutions have consistently delivered high adoption and measurable results. With an average ticket size tailored for small to mid-sized ISPs, we focus on delivering powerful tools that are both scalable and cost-effective.

Beyond billing and subscriber management, Netzur is advancing the future of ISP operations with AI-driven features. These include churn prediction, predictive network monitoring, smart ticket routing, and customer engagement tools. We are also expanding our platform with TR-069 ACS integration, inventory management, and conversational AI assistants, ensuring ISPs stay competitive in a rapidly evolving digital ecosystem.

At Netzur, our mission is clear: to empower ISPs with reliable, intelligent, and future-ready OSS/BSS solutions. By combining technical innovation with deep industry understanding, we help service providers focus on growth while we handle the complexity of operations and automation.

With a dedicated team and strong vision, Netzur continues to play a pivotal role in shaping the digital connectivity landscape.

URL: [netzur.com](http://netzur.com)

## D15: APNIC

APNIC (Asia Pacific Network Information Centre, pronounced A-P-NIC) is an open, independent, not-for-profit membership organization that underpins the infrastructure and growth of the Internet in the Asia Pacific.

URL: [www.apnic.net](http://www.apnic.net)

## D16: APLOMB TECHNOLOGY

Aplomb Technology is a trusted name in the cable TV and broadcasting industry, delivering innovative software solutions for over 25 years.

We specialize in subscriber management system, billing software, content delivery, IPTV, and OTT platforms-helping operators streamline operations and improve service quality. With a strong focus on reliability, scalability, and cost-effectiveness, our solutions empower networks of all sizes to stay competitive in a fast-changing digital landscape. Backed by a skilled team and deep industry expertise, Aplomb Technology is committed to driving digital transformation and remains the preferred technology partner for broadcasters and service providers worldwide.

URL: [www.aplombtechnology.com](http://www.aplombtechnology.com)

## E02: SPI ENGINEERS

SPI Engineers and INNO Instrument at SCAT 2025 – Mumbai

SPI Engineers, the Exclusive Authorized Distributor and Service Partner for INNO Instrument, Korea, in India, Bangladesh, Bhutan, and Nepal, is proud to showcase the latest innovations at SCAT 2025 in Mumbai. We will present a comprehensive range of Fusion Splicers, OTDRs, Power Meters, and Cleavers from INNO Instrument – a globally recognized brand known for its technical excellence, reliability, and superior quality. Trusted by customers worldwide, INNO products are engineered to meet diverse fiber optic requirements, from everyday installations to complex large-scale projects.

### INNO's product portfolio includes:

- ◆ i-Series Fusion Splicers – highlighting advanced capabilities and user-friendly design.
- ◆ View Series & M Series Splicers versatile, robust, and performance-driven.
- ◆ Ribbon Splicers – ideal for high-density fiber projects.
- ◆ New OTDRs & Power Meters delivering precision and efficiency in testing and measurement.

As part of our strong partnership, SPI Engineers ensures Pan-India sales and service support through dedicated SPI INNO Service Centers in Ahmedabad,

Bangalore, Bhubaneswar, Delhi, Guwahati, Hyderabad, Indore, Kolkata, Lucknow, and Mumbai. Our qualified service engineers ensure customers receive seamless after-sales assistance and quick turnaround support.

The collaboration between SPI Engineers and INNO Instrument represents a commitment to innovation, robustness, and efficiency, ensuring customers benefit from world-class products backed by local expertise. Together, we bring the best of both worlds – global technology and local service – to the optical fiber industry.

Join us at SCAT 2025, Mumbai, and experience the future of fusion splicing and optical test solutions with SPI Engineers and INNO Instrument.

## E03: DE-CIX INTERWIRE INTERNET SERVICES PVT. LTD.

DE-CIX India is the nation's leading Interconnection Platform, enabling seamless, secure, and high-performance interconnection for Internet Service Providers (ISPs), enterprises, cloud providers, and content delivery networks. As a subsidiary of DE-CIX, the world's largest IX operator based in Frankfurt, Germany, DE-CIX India brings global expertise and trusted infrastructure to

meet the evolving digital needs of the Indian ecosystem.

With a presence across multiple key data centers in India, DE-CIX India ensures ultra-low latency, robust connectivity, and cost-efficient traffic exchange. Its interconnection services include Peering, DirectCLOUD, Microsoft Azure Peering Service (MAPS), Cloud Router, and Data Center Interconnection—empowering customers with greater control, flexibility, and efficiency in managing their digital operations.

Serving a diverse clientele from ISPs to SMEs, SMBs, and large enterprises, DE-CIX India plays a pivotal role in strengthening the country's digital backbone. By enabling businesses to interconnect directly, the company reduces dependency on international routing, improves network performance, and enhances the overall Internet experience for end users.

Innovation and customer-centricity are at the core of DE-CIX India's mission. The company is committed to expanding its presence across more data centers, investing in infrastructure, and delivering secure, reliable, and scalable services that support India's digital transformation. From powering the demands of streaming, cloud adoption, and IoT, to helping ISPs transition into Interconnection Digital Service Providers (IDSPs), DE-CIX India is shaping the future of connectivity.

As part of a global interconnection ecosystem spanning Europe, North America, the Middle East, and Asia, DE-CIX India not only connects businesses within the country but also serves as a gateway to international markets—driving economic growth, digital innovation, and a stronger, smarter Internet for all.

## E04: MONTRONICS

# MONICS

Montronics are Pioneers in the CATV & Networking field. We offer high quality products. Our wide product range includes EPON, GPON OLT's, XPON ONT Routers, SPLICING MACHINES, OTDR'S, EDFA's, FIBER OPTIC CABLES, Fiber Optic Patch cords, PLC SPLITTERS, Fiber Optic connector & accessories Transmitters, Optic Nodes, Hybrid Amplifiers, Optical Power Meters, Tap-Off Splitters, Ethernet Switches, Coaxial, Cat 5e & Cat 6 cables.

Montronics has been the backbone of Cable & Networking operators providing high quality equipment at rock bottom prices along with full technical support and free home delivery in Mumbai, Thane & Goa. Montronics are Distributors/Dealers for several Brands like MONICS, SYROTECH, FUJIKURA, TP-LINK, DLink, TENDA, DIGISOL, VIAVI, EXFO, SUMITOMO, Mikrotik, UBQUITTI & CISCO

### Our Products

- ◆ OLT-EPON/GPON
- ◆ ONU/ONT
- ◆ SPLICING MACHINE
- ◆ EDFA/TRANSMITTER
- ◆ FIBER OPTIC CABLE
- ◆ Cat-5 / Coaxial Cable
- ◆ Fiber Optic Patch Cord
- ◆ CATV Hybrid Amplifier
- ◆ Optical Nodes
- ◆ Media Converter
- ◆ OTDR

- ◆ Enclosure Box/FMS
- ◆ Patch Panel
- ◆ Power Meter/DB Meter
- ◆ Fiber Optic Tools Equipments
- ◆ Optic Plc Splitter

## E06: BIG VENTURES BROADBAND PVT. LTD.

Big Ventures: Building India's Digital Backbone

In a country racing towards a connected future, Big Ventures has been quietly making its mark. From the lanes of Goa, to the gardens of Bangalore, to the bustle of Mumbai, the company represents a new breed of internet service providers—nimble, ambitious, and driven by the belief that every home and business deserves lightning-fast connectivity.

### The Journey

Founded in 2020, Big Ventures began with a simple but powerful idea: bring reliable internet and digital services to communities often overlooked by larger players. While India's metro cities were lapping up broadband, smaller towns and emerging neighbourhoods struggled for seamless connectivity. Big Ventures set out to bridge that gap.

Over the years, the company has evolved beyond just an ISP. Today, its platforms not only provide fiber-optic and wireless broadband but also explore the world of digital media and streaming, positioning itself at the intersection of telecom and entertainment.

### What They Offer

At its core, Big Ventures delivers high-speed fiber internet and

wireless broadband—the lifeline for homes, offices, and co-working spaces. But they don't stop there. With on-demand streaming and digital content services, the company is embracing the way people now live, work, and play online. Their model is simple: connectivity first, but always with an eye toward the future of digital lifestyle.

### A Competitive Edge

India's internet space is dominated by telecom giants like Jio, Tata and Airtel, but Big Ventures thrives in spaces where others hesitate. By focusing on semi-urban and tier-2 cities, the company taps into under-served markets—offering speed and reliability where choices are often limited. This hyper-local approach allows it to build stronger relationships with customers who value personal service as much as performance.

### Challenges & Resilience

Like every ambitious player in the broadband sector, Big Ventures has faced its share of hurdles—regulatory complexity, infrastructure costs, and fierce competition. Some of its legal entities have even gone through restructuring. Yet, the brand continues to survive and adapt, demonstrating resilience in a cutthroat industry.

### Looking Ahead

India's hunger for data shows no signs of slowing down. With remote work, streaming, gaming, and smart homes driving demand, the need for robust internet infrastructure is greater than ever. Big Ventures aims to capture this momentum, scaling its footprint city by city while exploring synergies with media and digital platforms.

As India marches toward becoming one of the world's largest digital economies, companies like Big Ventures remind us that connectivity is more than just speed—it's access, empowerment, and opportunity.

URL: [www.synway.net](http://www.synway.net)

### **E14: SABOT ONE PVT. LTD.**

Sabot One Pvt. Ltd. is a next-generation Super OTT Aggregator

dedicated to bringing the world of digital content to every household at the most economical value. Designed to cater to the masses, Sabot One bridges the gap between affordability and variety, ensuring that quality content is no longer a privilege but a right for everyone.

Our platform is a one-stop destination that goes beyond entertainment. With Education from KG to PG, we empower learners across all age groups with knowledge at their fingertips. For those seeking wellness, our health content library provides trusted resources on fitness, lifestyle, and holistic care. To ensure complete family engagement, Sabot One also delivers a rich mix of entertainment across genres and languages, along with interactive games that bring joy and excitement for users of all ages.

Sabot One's vision is simple yet powerful—democratizing digital access by offering diverse, meaningful, and enjoyable content in a seamless ecosystem. By bundling multiple OTT apps and specialized services into a single affordable platform, we aim to transform the way people learn, heal, relax, and play.

In a world where digital is indispensable, Sabot One Pvt. Ltd. stands as a trusted partner for every family, combining education, health, entertainment, and gaming into one powerful super app.

URL: [www.sabot.ins](http://www.sabot.ins)

## F01: OFR TELECOM

### OFR Telecom

We are pleased to introduce OFR TELECOM as an innovative manufacturer from India. OFR is foraying in the Technology Industry providing products and solution to the Telecom Sector and Cable industry. We have a strong presence in National and International market as reputed organization.

Our state-of-the art manufacturing facility is fully equipped with latest machinery. We have an uncompromising focus on customer satisfaction. Timely and consistent supply of high-quality products has helped us become one of the fastest growing organizations in our product segments.

We are ISO 9001, ISO 14001 and ISO 45001 certified company for Quality Management, Environmental management, and Health & Safety Management.

Our range of products for the Telecom and Cable industry include

- 1) Wide range of Optical Fibre Cables
- 2) Reinforced strength member (FRP/ARP)
- 3) Copper Telecom cables
- 4) FTTH Product Range

The back bone of our operations is a Pool of Highly Skilled and Trained Personnel. The Team is extremely passionate and works round the clock to create high quality products.

We have established a stringent quality control mechanism to check the quality of both input materials and finished goods. We have fully equipped in-house testing facility

are as per International Standards for the range of Products.

In our journey of excellence we value your esteemed association with our organization.

URL: [www.ofrtelecom.com](http://www.ofrtelecom.com)

## F02: SMART SOLUTIONS

Smart Solutions, a well-known name in the field of FTTH and Telecom solutions, has definitely made a niche for itself in the field. A well-placed proof of this fact is that the firm registered impressive growth in a short span of time with happy and satisfied customers. In the ever-changing and ever-growing Telecommunication and FTTH industry.

## F03: MTANDT

Since 1974, they've been the partner you can count on. Founded by the Late Sri Rajkumar Modi, Mtandt Group was born with a simple goal: to make your work safer, more efficient, and more convenient—whether you're building, maintaining, repairing, or operating facilities and infrastructure.

### Our Business:

- 1) Equipment Sales & Rental Division (Scaffolding, Material Handling, Man lifting Boom and Scissor Lifts.)
- 2) Portadeck (Temporary Road Access Mats .)
- 3) Maintenance Repair &

Operation Supplies (Tools, Consumables, PPE's, etc)

- 4) WEB Systems International (Under-Deck Access & Dropped Object Protection Solutions)
- 5) Tactical Safety for Access & Falls (Lifeline Protection Systems)
- 6) CESL (Operator and Industrial Safety Training)
- 7) EAT (Rope Access Operations)
- 8) Mobility (Mobile light towers and Battery Systems)

URL: [www.mtandt.com](http://www.mtandt.com)

#### F4: SYSTEMATIC INDUSTRIES LIMITED

Founded in 2000, Systematic Group has grown into one of India's leading companies in steel wire transformation and coatings, with a robust annual production capacity of 2,00,000 MT. From humble beginnings of 3,600 MT, we have scaled to become a global provider of high-quality wire and cable solutions, trusted across industries and continents.

Our extensive product portfolio includes Galvanised Steel Wires, Aluminium Clad Steel (ACS) Wires, Zinc-Aluminium Alloy Coated Wires (Galvasys), Optical Ground Wires (OPGW), and Optical Fiber Cables (OFC) under our premium brand Durafiber. We also manufacture specialized barbed wires, fencing solutions, and wire products for diverse applications. Each product is designed to deliver superior performance, corrosion resistance, and

reliability, meeting the stringent requirements of industries worldwide.

We serve critical sectors including Power & Transmission, Infrastructure, Automobile, Agriculture, Telecom, and General Engineering, supporting projects that demand efficiency, strength, and long-term durability. Our expertise lies in extreme customization, advanced surface treatments, and innovative coatings, enabling us to deliver tailored solutions for complex and evolving industrial needs.

With six state-of-the-art manufacturing facilities across two states and one union territory, Systematic Group operates with cutting-edge technology and rigorous quality systems. Our global footprint extends to South East Asia, Africa, Europe, and the Middle East, where we are recognized as a reliable partner for both power and data transmission solutions.

At Systematic Group, we believe in building more than just products—we build connections. Through innovation, sustainability, and a commitment to excellence, we empower industries, strengthen infrastructure, and contribute to the progress of communities worldwide.

#### F07: FIFO TECHNOLOGIES

FIFO TECHNOLOGIES : Powering Your Progress with Zero-Cost Financing & Zero Down Payment At FIFO Technologies, we believe that access to cutting-edge tools should not be a barrier to your success. We are a premier provider of high-performance fiber optic splicing machines, engineered for precision,

## FOCUS: SCAT 2025 SHOW GUIDE

durability, and unmatched efficiency in the field. But we are more than just an equipment supplier; we are your strategic partner in building the future of connectivity.

Understanding the significant investment required for top-tier technology, we have created a groundbreaking initiative to remove the primary obstacle for growing businesses: upfront cost. We are thrilled to offer qualified clients a revolutionary 0% Down Payment and 0% Interest financing program on our entire range of splicing machines.

This means you can deploy the industry's best equipment immediately, without a single initial payment or the burden of accumulating interest. Preserve your vital capital for other critical areas like labor, expansion, and operations. Our program is designed to help you say "yes" to bigger projects, increase your profitability on every job, and gain a decisive competitive edge—all from day one.

Our splicing solutions are built for the real world, featuring intuitive interfaces, robust designs, and reliability that ensures you meet tight deadlines with confidence. By eliminating financial friction, we empower contractors, telecom companies, and network builders to scale their capabilities seamlessly.

Partner with FIFO Technologies and equip your team with the best. Accelerate your growth, enhance your service quality, and future-proof your business without the financial strain. Contact us today to learn more about our zero-cost financing offer and how we can help you splice your way to success.
